

RESOLUTION

Government of Georgia

State Program “Renewable Energy 2008 “- On the approval of regulation with regard to the provision for the construction of new renewable energy sources in Georgia.

1. To approve the State Program “ Renewable Energy 2008” – regulation with regard to the provision for the construction of new renewable energy sources in Georgia subject to the subparagraphs “e”, “t”, and “i”, the Article 5, “the Georgian Law on the Rule of Structure, Authority and Activity of the Georgian Government”. (Annex 1)
2. To approve the standard form of application submitted to the Ministry of Energy of Georgia by the person expressing interest for the construction, operation and possession (or building, operation and ownership) of the electric power stations included in the list of renewable energy sources of Georgia. (Annex 2)
3. The resolution is in effect from the date of its publication.

Prime Minister
Vladimer Gurgenedze
